

## **SAAB Application Social Impact Grant**

The Research Grant is accepted on a monthly rolling basis. For the Spring Semester of 2020, the Grant will be due on Wednesday, April 15th. All Grants will be heard within two weeks of the deadline. Grants can be turned in to SAAB/ASLC mailbox (msc #140) or directly to the SAAB Grants director by email or in person during office hours.

With the Research Grant, the Student Academic Affairs Board (SAAB) supports students who wish to establish a long-lasting, positive influence on the Lewis & Clark (or larger) community and/or subcommunities. All social impact projects must have the intended goal of sustained, responsible, and purpose-driven impact. No funding shall go to student pay, nor shall projects be designed to financially benefit students in terms of income or ownership.

Future leadership (when applicable) of successful social impact projects should remain within the Lewis & Clark student population; individual grantee profit must not be the goal or direct consequence of any SAAB Grant, and this rings true for the Social Impact Grant. Proposals to start and fund new student organizations will not be considered through this grant program, and instead must be submitted to ASLC's Student Organizations Committee. Successful SAAB social impact projects are encouraged to sustain their positive impact by seeking other sources of philanthropic funding.

### Information

Applicant: \_\_\_\_\_  
Phone, Box, E-mail: \_\_\_\_\_  
Student ID #: \_\_\_\_\_  
LC Project Advisor: \_\_\_\_\_  
(Expected) Graduation Date: \_\_\_\_\_

### Signatures

Applicant: \_\_\_\_\_  
Project Advisor: \_\_\_\_\_  
Bates Center Advisor: \_\_\_\_\_  
SAAB Representative: \_\_\_\_\_  
SAAB Representative: \_\_\_\_\_  
Registrar: \_\_\_\_\_

\*\*\*Your signature above constitutes a contractual agreement between SAAB and yourself that all funds will be used for the express purpose of completing the final project. By signing this form you agree to complete a Final Report and turn in all receipts to the SAAB Chair and/or Grants Director. Your signature also signifies consent to allow the Registrar to verify your academic standing with SAAB.

## Procedure

- 1) Develop an idea. All SAAB applications must be based in a thoroughly researched and developed idea that extends above and beyond available class curricula and/or a standard class project.
- 2) We recommend that you meet with at least one SAAB representatives within the first six weeks of the semester to discuss your plan for the project. This can be an informal meeting, and allows for the SAAB representatives to guide you through any potential problems with your ideas. It is best if you meet with the SAAB representatives for your department (or a department to which the grant adheres), but this is not a requirement. The first Entrepreneurship, Leadership & Innovation (ELI) minors may declare Fall 2020, which is an academic program connected to the Bates Center; at this point they may be eligible to represent SAAB. Before then (and once there is an ELI rep in the future) it would be wise to consider other academic programs that pertain to your grant and seek out the consultation of that rep as well.
- 3) Meet with a Bates Center advisor (email [entrepreneurship@lclark.edu](mailto:entrepreneurship@lclark.edu)) to discuss your budget and plans to sustain future impact including leadership, outside funding, and other pertinent details.
- 4) Meet with your project advisor (must be an employee of Lewis & Clark College) to discuss your project. At this time you must receive their support and signature and ensure that they will provide a letter of recommendation for your application.
- 5) Reserve a time and place where you will share your research with the student body and/or greater Portland community. This may include symposia or colloquia and locations such as Smith Hall or Thayer. Please attach to the grant a written confirmation (e.g. from Facilities) for your presentation time/place.
- 6) You must meet with two SAAB representatives (which includes the one(s) that you met with at the beginning of the semester) with a complete draft of your application for revision. This must occur at least two weeks before the grant is due. These representatives must sign your application before it can be submitted. SAAB representatives can only sign applications that they believe are meritorious. In other words, if the representative does not believe that your application should receive full funding, then they cannot sign it. Because of this, it is of utmost importance that enough time is budgeted to receive feedback and make changes on your application before it is due. SAAB representatives are not required to make time to review applications after the two week deadline.

- 7) Receive the signature of the registrar to verify that you are in good academic standing (2.00 GPA or higher). Allow a full working day for the registrar to sign your application. Be sure to provide photo identification when picking up your signed application. If multiple students are submitting the same application, then each student must turn in a completed signature page (the first page of this application) with the submitted grant.
- 8) **Turn in your completed grant to the ASLC/SAAB mailbox in Templeton (msc #140)** (and send a confirmation email to SaabGrants@lclark.edu), **email a copy of the grant application to the SAAB Grants Director, or turn in a physical copy during Grant Director office hours.**
- 9) Formal presentations are required of all grant applicants. The SAAB Chair or Grants Director will contact you with a presentation date after your application has been received. Your presentation is, in many ways, as important as the grant itself, so prepare in advance and dress professionally. You will have 7 minutes to tell the board about your project, express your enthusiasm and dedication for it and the subject, and to address any weaknesses you feel may be perceived in your grant application. Your presentation will be followed by a Q&A session with the board. Power Points or other visual aids are encouraged.
- 10) Unlike other SAAB Grants, your funding will not be disbursed all at once and the budget, though it should be as detailed as possible, is preliminary. You will be required to make all purchases alongside your Bates Center Advisor, who will provide guidance on prudent purchasing decisions. Because of this, you, as a grantee, will not be burdened with returning money alongside your final report.
- 11) If you are funded, year-end reports are due one week after the first applicable semester ends (one week into winter or summer break). Follow up reports may be required for successful grants in the future. The SAAB Chair or Grants Director will provide you with the necessary information upon funding.

### Application

Your application should include:

- 1) The page with your application information and required signatures (one per student applying).
- 2) Detailed answers to the questions on the following page. This portion of the application should be at least 4-6 pages in length.
- 3) A detailed timeline of the project including a detailed schedule of your planned research.

- 4) Two itemized lists of expenditures detailing an optimum (your preferred) and a minimum (the absolute minimum amount you would need) budget request, within a table clearly displaying the items of the budget and the delineations between the optimum and minimum amounts. Be prepared to justify all items. Research prices and present the Board with the most competitive prices available. If you are applying for partial funding, please include the total amount and the sources from which you would receive additional funding. Note: not all grants will have an optimum and minimum budget. If this is the case, provide one budget and a short explanation for why there is only one.
- 5) As much as possible, provide proof of the above costs, especially for supplies that have already been purchased. This can include photocopies or printouts of receipts, or online verification. For airline tickets (regardless of whether or not they have been purchased yet), include a printout of the website used (Expedia, BestFares, etc.) which verifies you have selected the most competitive price.
- 6) A letter of recommendation from your project advisor, who must be an employee of Lewis & Clark College, preferably of the College of Arts and Sciences. Letters of recommendation should endorse both the merit of the applicant and the proposed project. These letters are confidential, and should be submitted in a sealed envelope with the advisor's signature across the back.

**Applications should look professional, and should be free of typos, spelling mistakes, and grammatical errors. Submissions should be double-spaced, with a header that includes your last name and page numbers. When answering the questions below, each of your responses should be preceded, in bold, by the respective question.**

### Application Questions

- 1) Please provide a detailed description of the project. What is the purpose of your project?
- 2) Which communities are you hoping to benefit? How do you intend to work with these communities? Please be as detailed as possible.
- 3) How did you come up with the idea? What other research have you done on or relating to this topic?
- 4) Have you done work in the past alongside members of your desired communities or sub-communities?
- 5) What plans do you have to sustain this social impact project? Detail plans on future leadership, turnover, external grants you intend on applying for, and growth.
- 6) Describe possible pitfalls now and in the future and how you plan on avoiding or adapting to these complications.
- 7) The SAAB bylaws read, “SAAB requires its grant recipients to bring their project back to the LC community and encourages them to bring it to the larger global community.” Please discuss how you intend to fulfill this. Describe how your project will impact and benefit the greater Lewis & Clark community, both in the short- and long-terms. Also discuss if you have plans to give your project greater exposure on the state, national, or international levels.
- 8) Have you received SAAB funding for this project in the past?
